

Please stop Sinclair from airing their anti-Kerry propaganda. If it were to be allowed on the air it would be a misuse of public airtime. The only purpose of such a thing is to significantly sway public opinion, but having it so close to the election date is seriously underhanded.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. This certainly isn't in my interest or the interest of anyone I know!!

Instead of something produced at "News Central" far away, it's more important that we see real people from our own communities and more substantive news about issues that matter. This ad will exploit the sensitivity of our nation in it's condition due to the war and terrorist attacks. Please don't let this happen!
